INSTALLATION

Laying a wooden floor requires expert, trade or proficient DIY skills. As well as a full range of installation products (including underlays, adhesives and trims), Brooksfloor also offer installation advice (further information at: www.brooksfloor.co.uk/installation.php). If you're not sure about any aspect of the work please contact us.

MAINTENANCE

A simple vacuum, sweep or dry mop is all that's needed to clean day-to-day dust and loose dirt. For a more intensive 'refresher' clean, we recommended after-care cleaning/maintenance products. As 80% of dirt comes from outside, we suggest placing sturdy doormats and rugs at entry points and use furniture pads under chair legs and heavy furniture.
